Technical Skills

Frontend: HTML, CSS, Javascript, Typescript, ReactJS, Redux, NextJS, TailWind CSS, Bootstrap

Backend : NodeJS, ExpressJS, NestJS, REST APIs

Database: MongoDB, MySQL,

Tools: Git, Github, VS code

Deployment : Hostinger(VPS Server), Netlify

Interpersonal Skills

- Team Leadership
- Management & Coordination
- Decision making
- Multitasking
- Keen Learner

Hobbies & Interest

- Traveling
- Meditation
- Exploring Technologies
- Gardening

Language

- Hindi
- English

About Me

Dedicated Full Stack developer with 1 year of hands-on experience with a passion for crafting seamless web applications. Proficient in React, MongoDB, Express, and Node.js, with a track record of delivering robust and user-centric solutions. Skilled in creating responsive interfaces, designing RESTful APIs, and collaborating effectively within cross-functional teams. Dedicated to maintaining high-quality code and staying updated with the latest development trends.

Professional Experience

La Majeste Group | Full-Time as Full Stack Developer
Sept, 2022 – Oct, 2023

Key responsibilities:

- Worked with a team of 4 web developers and provided end-to-end solutions for clients.
- Developed and maintained front-end applications using **Next.js, React.js, Redux, Hooks, and Tailwind CSS**.
- Built scalable, high-performance back-end services with **Node.js, Express.js, and MongoDB**.
- Designed, optimized, and managed APIs to ensure seamless integration between front-end and back-end components.
- Applied TypeScript for enhanced code robustness.
- Established, maintained, and fine-tuned application performance to enhance efficient development processes.
- Collaborated cross-functionally with design, product, and other teams to deliver user-centric applications.
- Diagnosed, troubleshooted, and resolved bugs while adhering to code quality standards, and seamless **deployment**
- Stayed updated with industry developments, trends, and emerging technologies.

Cysque Softwares | Internship as Software Engineer
Mar, 2022 – Aug, 2022

Key responsibilities:

- Completed 100 hours of training on web development with React on Coursera.
- Regularly perform maintenance on the front end of the platform, which is based on HTML, CSS, Tailwind CSS, and React.
- Communicate with back-end developers for any front-end problematic issues, and improve accuracy.
- Build and maintain core web services and websites.
- Write well-designed and efficient code by using the best software development practices
- Collaborate with senior developers to update the website and create new features.

Education Background

● Software Engineering

Scaler Academy
Session: 2023-2024 |

● Bachelors in Computer Science Engineering

Chandigarh University
Session: 2018-2022 |

Certifications

- Full-Stack Web Development with React Specialization from Coursera.
- Data Structures and Algorithms Specialization from Coursera.

Projects

PartyWitty Artist Module

As a Full Stack Developer, I spearheaded the Partywitty Application Artist Module project, utilizing a robust tech stack including **ReactJs, Redux.Js, TailwindCSS, NodeJs, Express, MongoDB, RozarPay, Docker**, and **VPS Server** for deployment. Focused on delivering a responsive and user-friendly design, the module seamlessly facilitates appointment scheduling and ensures secure payment processing. Additionally, it incorporates efficient inventory management, performance optimization, and scalability to accommodate the growth of **Club and Event** businesses.

EasySalon

As a Full Stack Developer for the Easy Salon application, I contribute to its cutting-edge technology stack, including **ReactJs, Redux.Js, TailwindCSS, NodeJs, Express, MongoDB, and Stripe**. My role involves crafting a responsive and user-friendly design, implementing seamless appointment scheduling, ensuring secure payment processing, and optimizing performance for efficient inventory management. The application is specifically tailored for salon businesses, offering robust features such as **salon billing, marketing software**, and scalability to accommodate growing needs.

Erhem AI

As a Full Stack Developer for the Erhem AI application, I utilized a tech stack encompassing **Next.js, TypeScript, Redux.js, TailwindCSS, Node.js, Express, and MongoDB**. I played a key role in implementing features such as a responsive and user-friendly design, automatic listing of nearby restaurants and hotels based on location, and advanced AI-driven solutions for businesses. Additionally, I contributed to the integration of predictive analytics and data-driven insights, ensuring scalability for the growth of restaurants and hotels businesses.

Erhem Scanner

As a Full Stack Developer for the Erhem Scanner application, I adeptly utilize technologies such as **ReactJs, Redux.Js, TailwindCSS, NodeJs, Express, and MongoDB**. My role encompasses the implementation of key features including online **order management, room booking, food ordering, and payment processing**. I specialize in developing functionalities for customizing menu orders and enabling secure user authentication through **OTP** login. Additionally, I contribute to the seamless management of various aspects such as **restaurants, rooms, hotels, and menus**, while also overseeing QR scanner functionality.

Erhem Mobile

As a Full Stack Developer for the "Erhem AI" application, I utilized a tech stack encompassing **Next.js, TypeScript, Redux.js, TailwindCSS, Node.js, Express, and MongoDB**. I played a key role in implementing features such as a responsive and user-friendly design, automatic listing of nearby restaurants and hotels based on location, and advanced AI-driven solutions for businesses. Additionally, I contributed to the integration of predictive analytics and data-driven insights, ensuring scalability for the growth of restaurant and hotels businesses.
